International Middleware Conference

[Http://www.eecg.utoronto.ca/middleware2004](http://www.eecg.utoronto.ca/middleware2004)

Following the success of the past conferences in this series (Lake District/UK, Palisades/NY, Heidelberg/Germany and Rio de Janeiro/Brazil), the 5th International Middleware Conference will be the premier conference on middleware research and technology in 2004. The broad scope of the conference is the design, implementation, deployment, and evaluation of distributed systems platforms and architectures for future computing environments.

Highlights of the conference include:

- high-quality technical program
- advanced workshops
- work-in-progress presentations
- state of the art tutorials
- poster presentations
- social events
