
ECE 1778: Creative Applications for Mobile Devices

Lecture 11
March 25, 2020

(1)

The New World of Online Classes

- I hope that everyone is staying safe and healthy, and are getting used this new world we find ourselves in
- Would like to suggest we turn video on, if you wish, as it makes this more of a community.
- This course appears to need no adjustment to the grading scheme or methodology!
 - Not true in my undergraduate course!

Today

1. Logistics
2. Final Presentation & Report Specifications
3. Peer Review
4. Spiral 4 Presentations, cont'd

Will do Practice Video Recording Today

- In previous years, we did a practice recording, done by UofT Engineering Videographer Matt Gagné.
- I am going to still ask Matt to edit the video, but will give him the recording from today to see if he thinks he can do it.
- To be clear, though, today's recordings will not be kept
 - But will keep the final presentations
 - Only publish with each group's permission

Course Evaluations!

- You will have received invitation to review course
 - I don't see till next term
 - Do see response rate, currently 4/38 registered students
- Please Respond!
- I am very interested in free-form feedback beyond the numbers
- This course has been modified many times in response to the feedback.

Project Time Line

Project Stages

1. Forming Groups
2. Project Approval-in-Principle
3. Project Proposal/Plan
4. Proposal & Plan Presentations
5. Lecture on User Experience & Presentations
6. Spiral 2 Presentations
 - March 4/11
7. **Spiral 4 Presentations**
 - March 18
 - March 25 (**today**)
8. Final Presentations
 - Weeks of April 1/8
9. Final Report Due April 15th

Final Presentation

Final Presentations

- Weeks of April 3 and 10
 - Let me know by March 27 if you have a specific date requirement
- **Maximum 8 Minutes**
 - More time than usual!
- **Must Be Self-Contained**
 - What does this mean?
 - Assume audience has **no** previous knowledge of your project
- Who is the audience?
 - This class
 - Your future employer
 - Your parents

Required Content of Final Presentation

- 1. Describe motivation/goal – What & Why**
- 2. Description/Demo – with a Good Narrative!**
 - Describe how it works and demo it in the best way that conveys the essence of your work
 - Could include weaving of demo + explanation
- 3. Describe the Structure of the Software**
 - A picture may be appropriate here;
 - ≤ 2 minutes; choose the right level to describe; ask if unsure
- 4. Future Work**
 - additional capability/features if work was to continue
- 5. Key Learnings - reflection**
 - What would you do differently if starting again
 - **Please** put thought into this

Video Recordings

■ We will record these presentations

- You will have the choice as to whether recordings will be posted publically
- The entire group must agree to posting

■ Matt Gagné (UofT Engineering Videographer) was in previous years was the in-person videographer

- I'm hopeful he will help edit the video produced from Zoom

Final Report

Due Date, Contents

Final Report

- Due Date: April 15
 - Last class is April 8
- **Maximum 2500 words**
 - Penalty 5% of final report grade for every 10 words over 2500
 - Report must include word count in document & compute penalty
 - Minimum font size 12 points
 - Pictures & words in pictures, and references not counted

Final Report

- Due Date: April 17
 - Last class is April 10
- **Maximum 2500 words**
 - Penalty 5% of final report grade for every 10 words over 2500
 - Report must include word count in document & compute penalty
 - Minimum font size 12 points
 - Pictures & words in pictures, and references not counted

Final Report Content

1. Introduction
 - What & Why
2. Statement of Functionality & **Screen Shots from App**
 - Describe the overall functionality of the work
 - For parts that did not work, describe & speculate as to why
3. Overall Design
 - Block diagram, description of each part
4. Reflection: What did you learn - what would you do differently?

Final Report Content, cont'd

5. Contribution by Each Group Member

- Describe what each group member did in project

6. Specialist Context

- 500 words max, included in main word count
- Describe how what was achieved can influence your research field, or the field of application.
- Written by the Specialist

7. Future Work

- How could the project be augmented to make it better?
- Suggest additional features and capabilities

Final Report Content, cont'd

8. State if **OK or not** to publically post each of the following on the Course Website:
 1. **Video of final presentation**
 2. **Report**
 3. **Source code**
 - All group members must agree for each one of these to be a 'yes'; Please state clearly that all members agree in the case of yes.
- **Source Code *must* committed to Project GitHub Archive**
 - Not claiming any ownership, just want right to review

Spiral 4 Presentations

Peer Review Questions

1. Summarize the Goal of the Project in your own words.
2. Give a suggestion for a **narrative** that they could use in their final presentation
 - Narrative is some kind of story they could use to make the goal and features clear
 - different from one that they used
3. Suggest one additional feature/function that you think could improve the project, that fits with the original goal

Due the Friday of the week of the Presentation

- Please submit **PDF**

Presentations March 25

#	Project
8	iBand
9	Notate
10	WhichFace
11	Healthy Partner
12	SAAM
13	Place It
14	E Health Manager
