When confused/ I didn't know a topic well, he would guide my learning as opposed to just giving me the answer.

This helped me a lot, by giving me a better understanding of the material.

Osama was always helpful when we needed assistance during the lab sessions, and always explained what was going wrong clearly. He was a great TA, and would highly recommend him for future positions (if he is interested of course).

My TA always made sure I understood concepts if I couldn't answer the question effectively. He tried his best to answer our questions
